Automobile Insurance Savings	
10% Rate Reduction	<ul style="list-style-type: none"> We have implemented a 10% rate reduction on automobile policies. The reduction will be automatically applied on any new CAA Insurance policy effective April 15, 2020, and on all renewals effective June 15, 2020. If your policy has already renewed, or is not yet up for renewal, contact your Broker to have the rate reduction applied to your policy. This rate relief is in addition to any other discounts and savings already on your policy. Note the reduction does not apply to any type of recreational vehicle, such as motorhomes or ATVs.
<u>CAA MyPace™</u>	<ul style="list-style-type: none"> Spending more time at home means you're likely driving significantly less. CAA MyPace is a pay-as-you-drive payment plan, ideal for low mileage drivers. If you're no longer commuting, we can switch your policy to CAA MyPace without any fees or penalties. When your driving habits return to normal, you can revert your policy back to a traditional CAA automobile payment plan, without fees or penalties.
Vehicle Usage	<ul style="list-style-type: none"> Another way to save is to adjust the mileage on your policy. For example, your vehicle may currently be rated based on your commuting kilometers. If you're now at home, you can change your vehicle use to 'pleasure only', which can result in significant savings. If you are temporarily using your vehicle differently, such as driving to deliver meals (including Uber Eats or Skip the Dishes) or groceries, or are using your vehicles for community services and Good Samaritan activities, we've got you covered. And, we will not charge any additional premium. Note, this does not apply if you're transporting people for hire through ride share programs.
